Table of Contents

Diagnostics and support.	1
API resources.	1

Diagnostics and support

There are several support features available with the Astra REST API that can be used for diagnostics and debugging.

API resources

There are several Astra features exposed through API resources that provide diagnostic information and support.

Type	Description
Event	System activities that are recorded as part of Astra processing.
Notification	A subset of the Events that are considered important enough to be presented to the user.
Unread notification	The notifications that have yet to be read or retrieved by the user.
